

## PROFILE

I am an outgoing, friendly individual who aspires to major in computer science. I've developed and implemented many academic and personal CS projects, from altering excel spreadsheets to coding games. In the near future, I intend to expand my learning & contribute to my culture and country by leveraging AI/ML-based offerings.

I am an experienced Tabla and Sanskrit tutor. My dedication, sincerity, and work ethic are evident in all that I do. I place a high value on cultural and moral principles and strive to continuously develop my character and become the best version of myself.
